## SKADII LOG BOOK

The Skadii Log Book is the easy way to complete the **legally required documentation** for the operation of your ropeway. Record different stations of a ropeway together in only one logbook and avoid the time-consuming compilation of documents. Various functions ensure the **correct and timely submission** of documentation.

Benefit from central access to **information on all installations** in your ski resort and full transparency on inspections carried out - both online and offline. Configure the Skadii Log Book according to your wishes and within the framework of the applicable local legal regulations. In Austria, Germany and the Province of Bolzano, the Skadii Log Book has the relevant **official approvals** from TÜV SÜD and the ropeway authorities.

- + Easy to use**  
On computer, tablet, smartphone

**+ Optimize information flow**  
Automatic synchronization between all devices

**+ Save time**  
Automatic data transfer by a single touch
