SKADII TASK MANAGER

The Skadii Task Manager offers a practical digital solution for the **creation, distribution and tracking** of various tasks throughout the entire ski resort.

Tasks can be created with one click and assigned to the respective employees or specific objects in the ski resort. The employees are informed in real time and receive an **overview** of the tasks that concern them specifically. An alarm function supports the **tracking of open tasks**. The Skadii Task Manager boosts **efficient communication**, saves time and enables the user, regardless of their location, to maintain an overview of all tasks in the ski resort.

Save time
Clear distribution of tasks in the entire ski resort

Communicate clearly
Specify tasks with comments and attachments

Stay up-to-date
Notifications of open tasks

Streamline internal processes
1 intuitive tool for all users in the ski resort

Structure workflows
